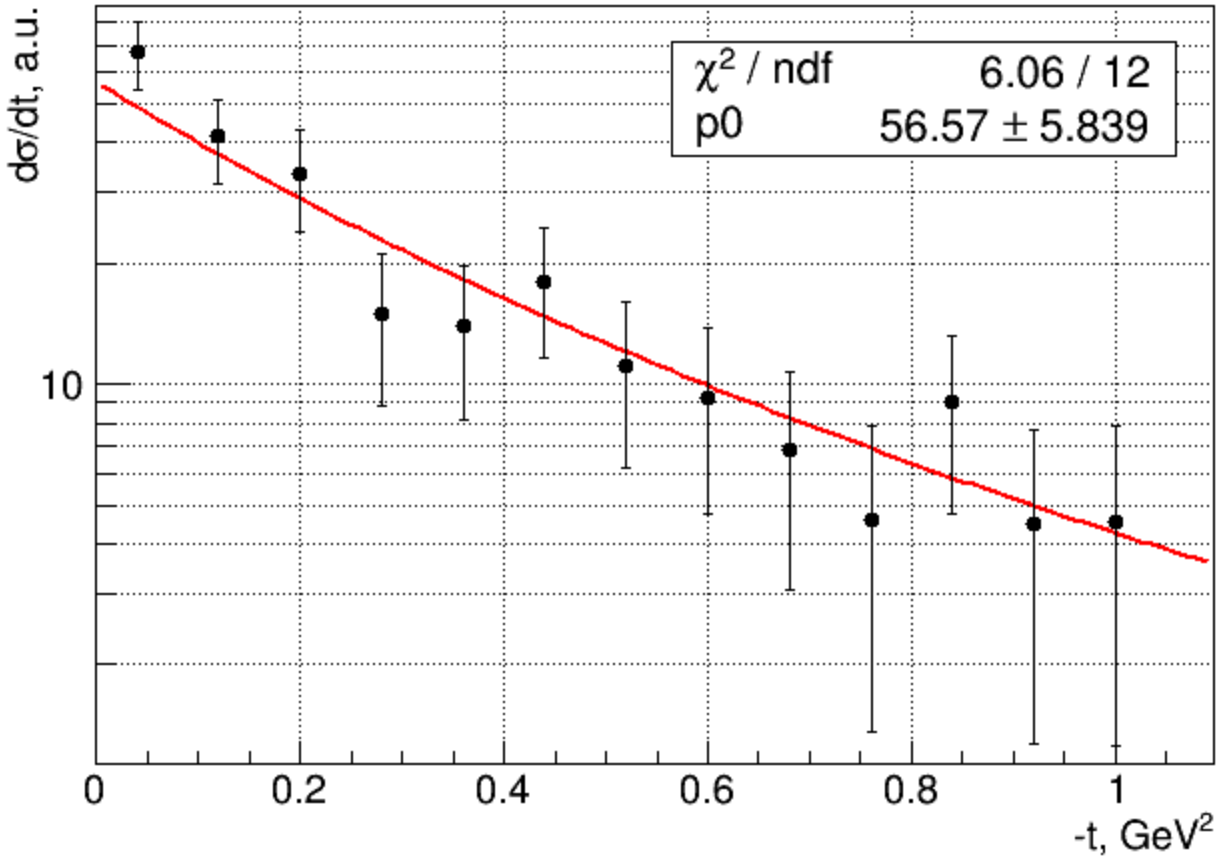
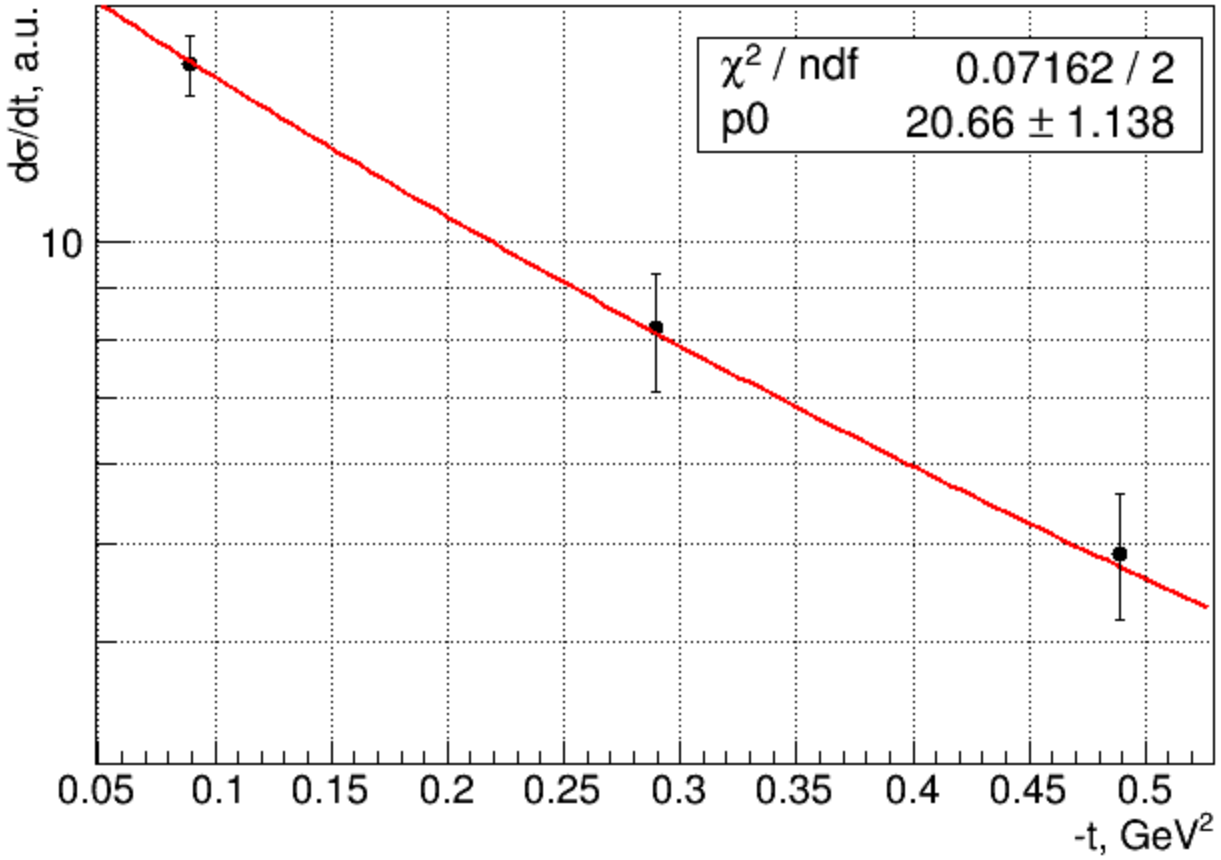
SLAC data corrected using Strikman t-model

Fit of FNAL data (60-300 GeV) with conts./(1-t/1.1)^4

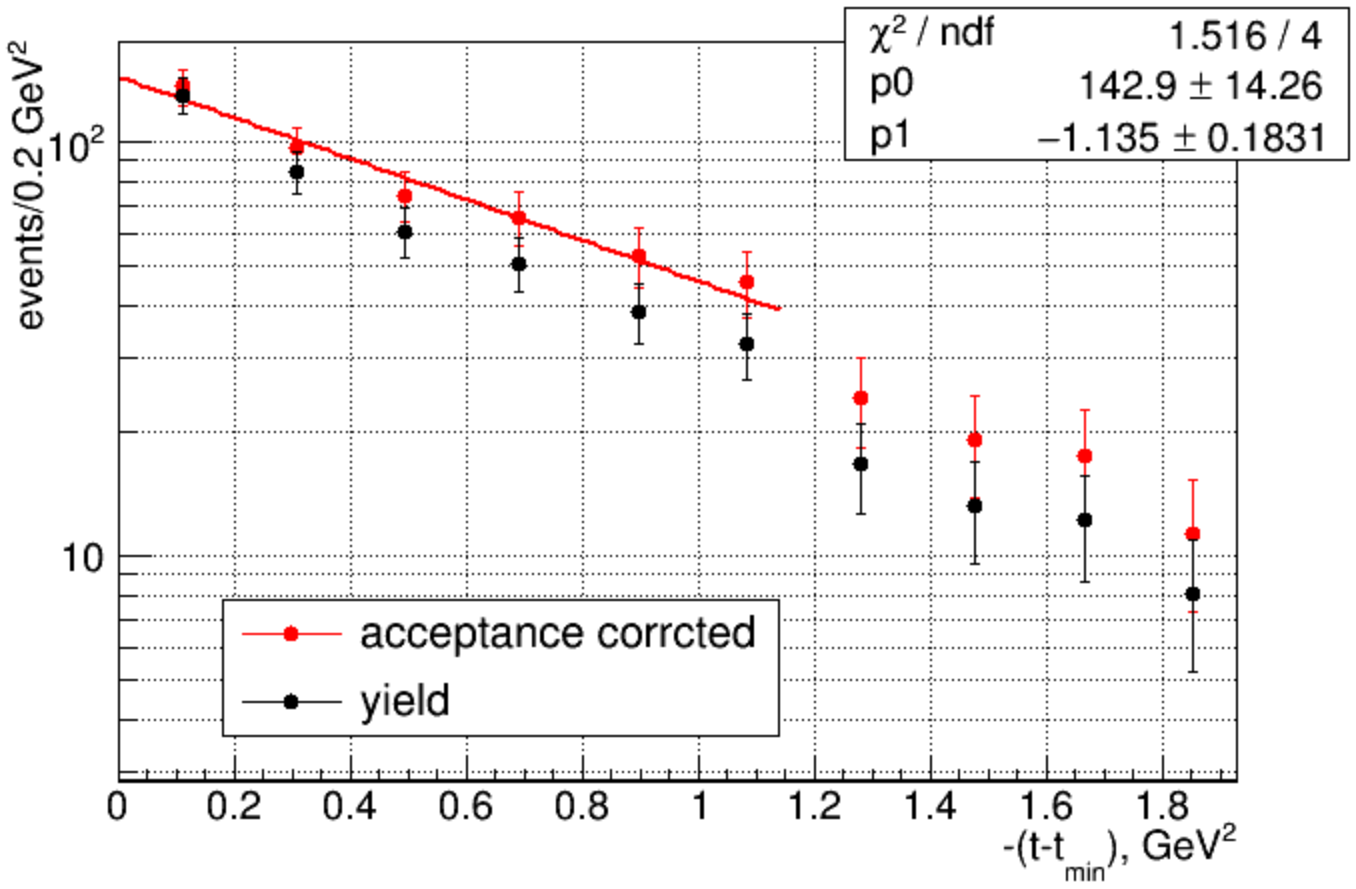


SLAC data corrected using Strikman t-model

Fit of SLAC data (60-300 GeV) with conts./(1-t/1.1)^4

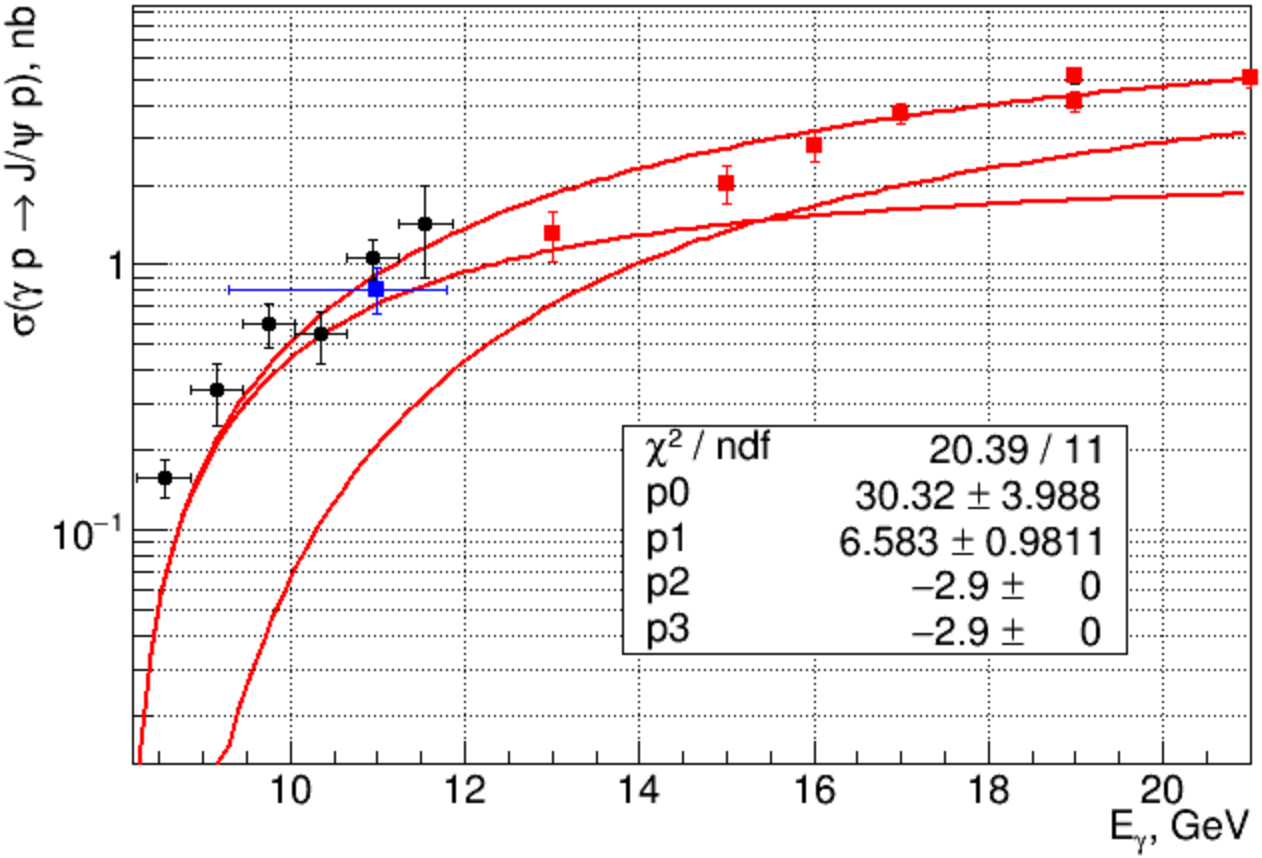


Cornell data



In paper: p0=0.90 +/- 0.1 nb/GeV^2 p1=1.13 +/- 0.18 GeV^2

Results with SLAC t-slope =2.9 GeV^-2



Results with SLAC t-slope from Strikman
